**“As a New Englander, I have been lucky enough to be raised to love craft beer! Working for Atlantic Brewing Company in the downtown tasting room was one of the most exciting, challenging and rewarding experience I could have ever imagined especially the summer after I graduated college! Bar Harbor is a beautiful coastal town that offers everything from restaurants to shopping to the beauty of Acadia. The ability to spend the mornings hiking along mountain trails and be back in time for work in the afternoon was just one of the many benefits of having a national park in your own backyard. This job catered to my positive and people-oriented personality and I was able to meet new people every day working in the tasting room! From pouring beer to chatting about the newest brews I was able to engage the public and learn new skills! Working for Atlantic was a life-changing experience because not only did I learn so much about the brewing industry but I made some amazing friends and spent the summer in one of the most beautiful places in the country!”**
